

# BETTELUX OVAL (Built-in Bath)

Design: tesseraux + partner

Conceptualised by tesseraux+ partner and manufactured from titanium steel, the beautiful design lines of the **BETTELUX OVAL** appear elegantly slender within its oval shape and fluid interior. The bath features a narrow rim that blends seamlessly with the soft surface of the bath body. Further visually and functionally enhanced, the bath also features the glass-like enamel finish **BETTEGLAZE** that offers resistance to UV light, impact and chemicals.

## Baths Available

Item	Code	Colour	Dimensions			*Capacity
			Length	Width	Height	
BETTELUX OVAL 170 x 75	3465-000	White	1700mm	750mm	450mm	150ℓ
BETTELUX OVAL 180 x 80	3466-000	White	1800mm	800mm	450mm	177ℓ

\* Capacity is the approximate water volume of the bath less 70 litres where 70 litres is considered the average for human displacement

## BETTEACCESSORIES

Item	Code	Colour
Adj. Cradle (Feet)	B23-1500	n/a
Waste & Overflow fitting Multiplex M5, Standard	B602-901	Chrome

## BETTEEXTRAS (only available as special order, extended lead times apply)

BETTEANTI-SLIP	While it is safe to stand on the standard BETTEGLAZE surface the quartz and sand mix of BETTEANTI-SLIP adds an even higher element of safety when standing for a shower.
BETTEGLAZE PLUS	The water-repellent action of the crystal-clear polymer film makes it even easier for the beads of water to drip off. So there are less deposits and less effort is required for cleaning.
BETTECOLOURS	BETTE offers a large variety of sanitaryware colours across the entire product range, to allow for individualised bathroom design

Above are the current models stocked in South Africa. All other products not shown here are available on special order only.

Products are only available through selected retailers in Johannesburg, Cape Town and Durban.
